

Workforce Dimensions and Passport Partnership

Field Service Software for Crew & Route Management

Key Features/Benefits

Planning Module

- » Real-time, location-based, and configurable task assignment
- » Employee task self-scheduling
- » Routing optimization and territory planning

Mobile Data Collection Module

- » Intuitive mobile apps with low error rates
- » Online and offline data collection including geo-sensing, biometrics, and badge scanning
- » Integration with Kronos, ERP/Work Order systems and Telematics systems

Route Execution Module

- » Plan vs. actual analytical reporting
- » Customer geo-fence purification

Every aspect of **Workforce Dimensions™** — the underlying architecture, integration, user experience, functionality, data access, delivery, and support — is designed to help you optimize your people. Powered by the industry-first **Kronos D5™ platform**, Workforce Dimensions provides a breakthrough employee experience and an unprecedented level of operational insight into your workforce management practices. Whether your goals are to increase productivity, improve compliance, control labor costs, or achieve better business outcomes, Kronos provides the technology tools you need to manage your workforce of the future today.

As the enterprise leader in workforce management applications, Kronos understands the need for strong integrations between software applications. That's why we've built a robust developer portal with access to our API layer. The Workforce Dimensions Technology Partner program is designed to facilitate this interoperability and drive business results.

PASSPORT

Passport Corporation delivers powerful planning, data collection, and route execution management software for field service organizations. Our applications allow you to enhance team productivity, increase operational efficiency, and optimize performance. Planned vs. actual analytics of your data uncovers previously hidden opportunities for significant growth.

Passport's software applications span the frontlines to the back office, complementing existing systems and business processes. We support all the Workforce Central features that you love, plus the extended power and flexibility of Workforce Dimensions. Easy-to-use mobile solutions for time, labor and job tracking enable accurate data collection, even when offline, and real-time visibility into frontline operations. Interactive back-office solutions automate job assignment, scheduling, location tracking, mapping, optimized routing of field personnel, and wireless dispatch of work orders to frontline employees.

As the mobile solutions partner for market leaders such as Kronos, Passport is the expert in frontline labor tracking to streamline payroll, improve job costing, and increase operational efficiency.
